Yes, we create custom colors. Sure, we can create a metallic finish that can be applied to almost any surface. But not all projects require a custom solution. That’s why we’ve made our more than 134 pigments and colors readily available in 7 ready-to-use coatings. Perfect for a variety of projects!

**Medium Oil Alkyd Enamel**
A durable alkyd enamel suitable for use on almost any interior or exterior properly primed surface; including metal, wood, concrete, drywall, and plaster. This product exhibits a faster dry time than our long oil with slightly reduced exterior durability.

Recommended application: Spray (HVLP or Conventional Air)
Optional: brush, roll or rag

**Perfect for:**
- Exterior roofs
- Domes
- Furniture
- Window frames
- Ceilings
- Faux finishes

**Modified Alkyd Enamel**
A durable, fast drying modified alkyd enamel formulated to achieve excellent adhesion and flexibility. Recommended for a variety of substrates; including properly primed metal, steel, plexiglas, wood, plaster, and certain plastic surfaces.

Recommended application: Spray (HVLP or Conventional Air)
Optional: brush, roll or rag

**Perfect for:**
- Most medium oil applications that require quicker dry times

**Long Oil Alkyd Enamel**
A durable, alkyd enamel suitable for use on almost any exterior properly primed surface including metal, wood, concrete, drywall, and plaster.

Application: Spray only (HVLP or Conventional Air)

**Perfect for:**
- Exterior roofs
- Domes
- Building exteriors
- Outdoor light posts

**Acrylic Latex**
A water-based decorative coating, which can be applied to almost any properly primed or previously painted interior surface. Substrates include wood, primed drywall, plaster, concrete, and some plastics. Not recommended for direct-to-metal without proper primer.

Recommended application: Spray (HVLP or Conventional Air)
Optional: brush, roll or rag

**Perfect for:**
- Ceilings
- Crown mouldings
- Display fixtures
- Faux finishes

**Two-Part Epoxy**

A two-part system that forms a super tough, scratch and chip resistant finish. This product has excellent adhesion to glass, ceramics, raw metal, and powder-coated material. Not for exterior application.

Application: Spray only (HVLP or Conventional Air)

**Perfect for:**
- Elevator doors
- Metal stairwells and railings
- Hollow metal doors
- Metal windows and door frames

**Acrylic Lacquer**

A durable, fast drying lacquer formulated to achieve high adhesion to a variety of substrates, including properly primed metal, wood, plaster, and certain plastic surfaces.

Application: Spray (HVLP or Conventional Air) or Dip

**Perfect for:**
- Fishing lures
- Light fixtures
- Craft items
- Furniture

**Low VOC Acrylic Lacquer**

This product is designed for the use in states with strict laws governing VOC content in coatings. It offers the same uses as our regular acrylic lacquer paint. Dries to a slightly glossy finish.

Application: Spray (HVLP or Conventional Air) or Dip

**Perfect for:**
- Fishing lures
- Light fixtures
- Craft items
- Furniture
